REPORT NO. FT 120

UNITED STATES GENERAL IMPORTS OF MERCHANDISE

COUNTRY OF ORIGIN BY COMMODITY

CALENDAR YEAR 1944

(Revised through February 1945. Later revisions will be supplied upon request.)

PREPARED UNDER THE SUPERVISION OF
J. EDWARD ELY
Chief, Foreign Trade Division
Bureau of the Census

JUNE 1945

Bureau of the Census

J. C. CAPT, Director

PHILIP M. HAUSER, *Assistant Director*

MORRIS H. HANSEN, *Statistical Assistant to the Director*

RALPH E. GALLOWAY, *Executive Assistant to the Director*

Foreign Trade Division

J. EDWARD ELY, *Chief*

IRVING WEISS, *Assistant Chief*

Classifications and Codes—Frederick W. Harrison

Export and Shipping Statistics—William C. Flaherty

Export and Lend-Lease Statistics—Milton Kaufman

Shipping Statistics—Nathan Habib

Import Statistics—Frank C. Bauer

Report No. FT 120, beginning with February 1945, is divided into the following Sections:

A: North and South America
B: Europe
C: Asia, Other Pacific Countries, Africa

Prices for Report No. FT 120 are as follows:

Calendar year 1944 - total for year, individual calendar months not shown separately	$0.45
Monthly, beginning with figures for February 1945 -	
Per issue	0.30
Per section	0.10
Yearly subscription, including monthly 1945 calendar year annual	3.50
Per section	1.25
Calendar year 1945 - total for year, individual calendar months not shown separately	0.45
Per section	0.15

General imports include the following types of transactions:

a. Immediate consumption entries
   (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

   (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.

b. Warehouse entries
   (1) Commodities entered into bonded storage warehouses.
   (2) Imported ores and crude metals such as copper, lead and zinc entered into bonded smelting and refining warehouses are included with warehouse entries.

General imports of merchandise include the following types of transactions:

a. Immediate consumption entries
   (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
   (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.

b. Warehouse entries
   (1) Commodities entered into bonded customs warehouses for storage.
   (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description
		Group 00 - Animals and Animal Products Edible
1	0010600-0015500	Animals, edible, except for breeding
2	0018000-0035500	Meat products
3	0036000-0036900	Animal oils and fats, edible
4	0037000-0046990	Dairy products
5	0047000-0079500	Fish and fish products, except shellfish
6	0080100-0087900	Shellfish and products
7	0088100-0097500	Other edible animal products
		Group 0 - Animals and Animal Products, Inedible
8	0201000-0299900	Hides and skins, raw, except furs
9	0300100-0345900	Leather
10	0350000-0699990	Leather, rawhide, and parchment manufacture
11	0700000-0759900	Furs and manufactures
12	0803000-0821600	Animal and fish oils, and greases, inedible
13		
13	0840000-0990290	Other inedible animals and animal products
		Group 1 - Vegetable Food Products and Beverages
14	1020000-1090260	Grains and preparations
15	1101000-1190800	Fodders and feeds, n.e.s.
16	1191100-1250990	Vegetables and preparations
17	1290000-1330990	Fruits and preparations
18	1350000-1380140	Nuts and preparations
19	1420000-1428900	Vegetable oils and fats, edible
20	1501300-1521000	Cocoa, coffee, and tea
21	1523100-1550590	Spices
22	1570000-1654800	Sugar and related products
23	1711300-1900000	Beverages
		Group 2 - Vegetable Products, Inedible, Except Fibers and Wood
24	2011000-2098900	Rubber and allied gums and manufactures
25	2102000-2189300	Naval stores, gums, and resins
26	2201000-2220490	Drugs, herbs, leaves, roots, etc.
27	2231000-2240700	Oil seeds
28	2241000-2290580	Vegetable oils and waxes, inedible
29	2302000-2345900	Vegetable dyeing and tanning materials
30	2401000-2460990	Seeds, except oil seeds
31	2501000-2599100	Nursery and greenhouse stock
32	2601000-2629900	Tobacco and manufactures
33	2800000-2960150	Miscellaneous vegetable products, inedible
		Group 3 - Textile Fibers and Manufactures
34	3001000-3005000	Cotton, unmanufactured
35	3006100-3020999	Cotton semimanufacture.
36	3030000-3230800	Cotton manufactures
37	3241000-3250900	Jute and manufactures
38	3261000-3390490	Flax, hemp, and ramie, and manufactures
39	3401000-3421500	Other vegetable fibers and manufactures
40	3501000-3541000	Wool, unmanufactured
41	3550000-3574600	Wool semimanufactures
42	3607000-3680800	Wool manufactures
43	3690000-3698900	Hair and manufactures, n.e.s.
44	3702000-3799900	Silk and manufactures
45	3800000-3860490	Synthetic fibers and manufactures
46	3900100-3981100	Miscellaneous textile products
		Group 4 - Wood and Paper
47	4007100-4080500	Wood, unmanufactured
48	4103100-4207555	Sawmill products
		[illegible]

Subgroup Code No.	Schedule A Commodity Code No.	Description
		Group 5 - Nonmetallic Minerals
53	5000000-5014300	Coal and related fuels
54	5052000-5079100	Petroleum and products
55	5080100-5193900	Stone, lime, cement, gypsum and gypsum products
56	5200400-5290850	Glass and products
57	5300000-5390700	Clay and products
58	5391000-5930980	Other nonmetallic minerals and manufactures, except precious stones and imitations
59	5950000-5958100	Precious and semiprecious stones, imitations, and industrial diamonds
		Group 6 - Metals and Manufactures, Except Machinery and Vehicles
60	6001000-6001100	Iron ore and concentrates
61	6002000-6116108	Steel mill products
62	6117000-6200998	Iron and steel manufactures
63	6211000-6270900	Ferro-alloys, ores and metals, n.e.s.
64	6301000-6305900	Aluminum and manufactures
65	6400400-6430300	Copper and manufactures
66	6453000-6459900	Brass and bronze manufactures
67	6502300-6509900	Lead and manufactures
68	6540000-6544900	Nickel and manufactures
69	6550000-6551900	Tin
70	6557000-6559900	Zinc and manufactures
71	6650000-6790990	Other nonferrous ores, metals, and alloys, except precious
72	6820000-6900500	Precious metals, jewelry, and plated ware
		Group 7 - Machinery and Vehicles
73	7063000-7100900	Electrical machinery and apparatus
74	7110000-7110700	Engines, turbines, and parts, n e s
75	7400200-7800990	Other machinery, except agricultural
76	7850000-7890190	Agricultural machinery and implements
77	7900100-7940290	Vehicles and parts
		Group 8 - Chemicals and Related Products
78	8000000-8090900	Coal-tar products
79	8102000-8150600	Medicinal and pharmaceutical preparations
80	8170000-8380992	Industrial chemicals
81	8400100-8441300	Pigments, paints, and varnishes
82	8500000-8559900	Fertilizers and fertilizer materials
83	8620000-8695000	Explosives, fireworks, and ammunition
84	8711000-8731200	Soap and toilet preparations
		Group 9 - Miscellaneous
85	9001000-9040400	Photographic goods
86	9140200-9180290	Scientific and professional instruments, apparatus, and supplies, n.e.s.
87	9200000-9280700	Musical instruments, parts, and accessories
88	9400000-9439990	Toys, athletic and sporting goods
89	9470000-9477000	Firearms and parts
90	9500000-9530790	Books, maps, pictures, and other printed matter, n.e.s.
91	9540100-9590081	Clocks, watches, clockwork mechanisms, and parts
92	9610000-9670300	Art works and antiques
		[illegible]

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1. The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when thie ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without e shipping weight. Wherever the shipping weight for the ore from a given country is less than the grose weight of the ore, there may have been transections fully reflected in the gross weight totals but for which the shipping weight has been eesigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned to the chief component of the transactions.

The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

		63 *		5098515	6319564*

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.
